Electrical World

A Review of Current Progress in Electricity
and Its Practical Applications

Volume LXXXIV

July 5 to December 27, 1924

McGRAW-HILL COMPANY, Inc.
Tenth Avenue and Thirty-sixth Street
NEW YORK CITY

INDEX TO VOLUME LXXXIV

July—December, 1924

GENERAL INDEX

Entries from the Digest of Current Electrical Literature are indicated by D (Digest)

PAGES BY ISSUES

July 5	1	52
July 12	53	102
July 19	103	152
July 26	153	202
August 2	201	252
August 9	253	300
August 16	301	350
August 23	351	400
August 30	401	450
September 6	451	502
September 13	503	556
September 20	557	666
September 27	667	718
October 4	719	776
October 11	777	826
October 18	827	876
October 25	877	928
November 1	929	984
November 8	985	1034
November 15	1035	1086
November 22	1087	1140
November 29	1141	1190
December 6	1191	1242
December 13	1243	1292
December 20	1293	1342
December 27	1343	1392

A

Accident prevention:
——Belt for removing linemen from poles, safety (G. W. Hurn), *1160.
——Construction department safety rules, 1004.
——Employee contest for lowering accidents, 324.
——Ground chains favored, copper-clad (C. B. Hefner), 691.
——Logging and sawmill safety code (D), 904.
——Manhole cover tests (Edward A. Holden and George M. Griffith), *171.
——Mines:
Electrification, safety in, 1110.
Hoist equipment, safety for electric, 1055.
——Narragansett Electric Lighting Company's charts, *851.
——National Fire Protection Association, electrical committee, 1018.
——National Safety Council's annual congress, 756.
——Pole guard, *22.
——Resuscitation, Consumers Power Company advocates prone-pressure, *178.
——Resuscitation, precautions in (editorial comment), 1245.
——Resuscitation, teaching teachers prone-pressure, *1368.
——Rubber goods tested daily (C. B. Hefner), 745.
——Safety slogan contest, central station, 75.
——Substation hazards are lowered, 1160.
——Switchboard for bank building, dead-front, *795.
——Testing distribution line tools for safety (T. B. Bash), *469.
Accounting (See also Billing):
——Balance-of-stores system (I. D. Murfield), *66.
——Line construction cost keeping (F. H. Miller and F. W. Fackle), *1349.
——Small utility companies, system for (editorial comment), 1243.
Administration (See Management):
Advertising (See also Public relations):
——Advisory Publicity Council, 541.
——Boston, Edison Electric Illuminating Company of, *127, *277, *850.
——Convention in England (editorial comment), 302.
——Co-ordinated, a demonstration of (editorial comment), 1345.
——Export trade, 492.
——Nebraska Power Company's electrical, *1369.
——Non-merchandising utility appliance, *275.
——Outdoor, use of light for (G. P. Garbett) D, 378.
——Porch lighting, stimulates, *376.
——Smallest consumers company's service to its, *424.
Advertising (Continued):
——Storm, after, *531.
——Utility companies' expenditures for, 1165.
——Utility-dealer, to educate the public, *531.
——Utility securities, Louisville Gas & Electric Company's, *1216.
——Washing-machine sale, Birmingham, *24.
——Window-lighting, advantages of, *76.
African railways, locomotives for South (D), 904.
Air breakers. (See Circuit breakers).
Air, liquefaction and rectification of (I. D. Goldsmith) D, 378.
Alabama Power Co.:
——Control of, 545.
——Farm electrification progress, 809, 1223.
——Gorgas steam plant unit, third, 535.
——Muscle Shoals and, *1173.
Alarms (See Signals):
Alaska, power sites and the wood-pulp industry, 332.
Alternating-current:
——Calculator for, circuits (R. L. Frisby), *222.
——Transformation (editorial comment), 54.
Alternators:
——High-frequency (C. M. Lafoon) D, 853.
——Inductor-, help to meet power shortage, old, *457.
——Load transference between, in parallel (St. Maurice), 1002, comments (A. P. Broadhead), 1107, (Roger T. Waite), 1107, (W. R. Detoush), 1157, (W. B. Buchanan), 1200.
——Polyphase high-frequency (Shigetaro Chiba) D, 1318.
——Self-excitation of (M. Takahashi) D, 903.
Altitude, influence exerted by, on apparatus (Kurt Lubowsky), 109.
American Electric Railway Association convention, 655, 808.
American Electrochemical Society convention, 807.
American Engineering Council:
——Coal-storage committee report, 86.
——Department of Public Works, advocate, 911.
American Foundrymen's Association's electric furnace session, 909.
American Institute of Electrical Engineers:
——Cleveland Section meeting, 859.
——Conventions:
Annual, at Chicago, *5, editorial comment, 1.
Fall, 483.
Midwinter and spring, 431, 1222.
Pacific Coast, 858, *933, editorial comment, 929.
Pasadena, 133.
——Edison Medal Award to John White Howell, *1323.
——New York Section, Tripp discusses superpower before, 859.
——Skinner nominated for president, *906.
American Manufacturers' Export Association convention, 906.
American Society for Steel Treating, convention, 758.
American Society of Civil Engineers, fall meeting, 962, convention (John Murphy), 1054.
American Society of Mechanical Engineers, annual meeting, 1220, 1262.
American Superpower Corporation, 860.
American Water Works & Electric Company not absorbed, 286.
American Welding Society meeting, 1016, editorial comment, 986.
Annunciators (See under Signals):
Appliances (See also Commercial activities and Manufacturing and Markets):
Arc, radiation from the Quartz-Mercury, during the period after first striking (B. D. H. Watters) D, 960.
Arc welding (See Welding):
Arizona:
——Colorado River and, 651.
——Phoenix utility, American Power & Light Acquires, 1119.
——Power Company's new financial structure (Paul Willard Garrett), *235.
Arkansas:
——Central Power Company's survey of residential customers' demand, 892.
——Light & Power Company buys systems, *235.
Arresters (See Lighting arresters):
Associated Manufacturers of Electrical Supplies:
——Meeting, annual, 1067.
——Section meetings, 858.
Association of Edison Illuminating Companies convention, 535, 741, (editorial comment), 667.
Association of Electragists International (See Electragists).
Association of Iron and Steel Electrical Engineers:
——Cleveland Section meeting, 860.
Association of Iron and Steel Electrical Engineers (Cont.):
——Convention, 383, 653, *678, (D), 696, (editorial comment), 667.
Association and societies:
——Convention season for public utility (editorial comment), 401.
——Directory of, 50.
——Group conventions, stronger liaison needed between (editorial comment), 827.
——News of, 36, 139, 189, 239, 290, 334, 385, 434, 485, 542, 657, 702, 759, 811, 861, 912, 968, 1019, 1072, 1124, 1176, 1224, 1277, 1327, 1377.
Aurora borealis, 514.
Austria:
——Partenstein, hydro-electric station (A. Kvetensky) D, 128.
——Power company loan, 432.
——Railways, electrification of federal (J. A. G. Pennington) D, 1117.

B

Bankers Association convention, Investment, 757.
Barometer of electrical business. (See Business.)
Batteries, storage:
——Charging; finishing charge paramount, 1162.
——Electrolytes (D), 180.
——Switch, semi-automatic cell (V. Candie) D, 229.
Bearings, ball and roller, for electrical machines (T. D. Trees) D, 904.
Belgium, electrical progress in, 1094.
"Better Home Lighting Campaign." (See Lighting.)
Billing machine, economies of centralized (H. C. Bradshaw), *749.
Boats. (See Ships):
Boiler room. (See also Boilers):
——Fire brick, utilizing discarded, 370.
——Furnaces:
N.E.L.A. prime movers committee report (D), 1011.
Operation and maintenance (Robert June) D, 179.
Repair, ground firebrick for (J. Harrington) D, 128.
Walls, brick-to-brick bond for, 745.
Walls of gas-fired, experience with (M. L. Wright), 1362.
Walls, reconstruction of, *1312.
Water-cooled (W. E. Caldwell) D, 752.
——Gas favored, burners for "premixed," (M. L. Wright), 1314.
——Generator load indicated in (R. L. Frisby), *419.
——Grates using movable ash door, clinker dam for (W. Lulofs) D, 278.
——Input and output in, measurement of (J. M. Spitzglass) D, 278.
——Soot blowers, test of mechanical (Robert June) D, 696.
——Station fired with oil and coal (E. J. Burger), *1039.
——Water intake screens, cleaning circulating (R. D. Gillespie), 1112.
Boilers, steam. (See also Boiler room):
——Carbon monoxide in boiler flue gases, continuous indication of (W. O. Andrews) D, 179.
——Feed water regulators, savings effected by, 524.
——N.E.L.A. prime movers committee on (D), 959.
——Pulverized-coal performance (L. W. Heller) D, *1217.
——Refractories, joint study of, 810.
——Scale prevention in, colloid chemistry and (E. M. Partridge) D, 427.
——Tube failures (J. W. MacKenzie), 1159.
——Vertical water-tube, foreign practice in (F. Johnstone-Taylor) D, 1217.
——Water conditioning, prevention of scale formation by (Hall, Fischer and Smith) D, 326.
Boilers, electric steam, tests on (C. Dantsizen and E. H. Horstkotte), 1156.
Bookkeeping "Without books," Public Service Company of Northern Illinois, 24.
Book reviews. (See also Books received.)
——Alternating-current circuit, the (Philip Kemp), 534.
——Amusements and experiments, electrical (Charles R. Gibson), 1271.
——A.S.T.M. standards—1924, p. 1271.
——Batteries, storage (G. W. Vinal), 80.
——Chart atlas of complex hyperbolic and circular functions (A. E. Kennelly), 280.
——Crain's market data book and directory of Class, trade and technical publications (G. D. Crain, Jr.), 804.
——Design, elements of electrical (Alfred Still), 80.

*Indicates illustrated articles

Book Reviews (Cont.):
——Dictionary, standard electrical (T. O'Conor Sloane), 1271.
——Direct currents, handbook of (K. C. Graham), 804.
——Drafting and design, electrical (Calvin C. Bishop) D, 1271.
——Electrical engineering, elements (George D. Shepardson), 804.
——Electrical engineering, elements of (A. L. Cook), 1013.
——Electrical engineering, principles and practice of (Alexander Grag), 804.
——"Electrician" annual tables of electricity undertakings for 1924, p. 534.
——Electricity for practical men, applied (A. J. Rowland), 1013.
——Electrochemistry, principles and applications of (H. J. Creighton), 1271.
——Electron, the (Robert Andrews Millikan), 1013.
——Engineering drawing (Thomas E. French), 280.
——Faraday, Michael (Wilfred L. Randell), 804.
——Generating sets employing internal-combustion engines, small electric (W. Wilson), 1271.
——Index, the engineering, 804.
——Industrial electricity (Chester L. Dawes), 1013.
——Isolierstoffe der Elektrotechnik, Die (edited By Dr. H. Schering), 1271.
——Jahrbuch der Elektrotechnik (Dr. Karl Strecker), 804.
——Job instruction sheets on practical electricity (W. B. Weber), 1271.
——Light and work (M. Luckiesh), 80.
——Linear integral equations (W. V. Lovitt), 804.
——Machinery and control diagrams, electrical (Terrell Croft), 804.
——Mathematical analysis, practical (H. Von Sanden and H. Levy), 1271.
——Measurements in theory and application, electrical (A. W. Smith), 1013.
——Measuring instruments and supply meters, electrical (D. J. Bolton), 280.
——Measuring instruments, electrical (C. V. Drysdale and A. C. Jolley), 280.
——Motors, control of speed and power factor of induction (Miles Walker), 804.
——Power plant machinery (W. H. James and M. W. Dole), 1271.
——Power station efficiency and control (John Bruce), 280.
——Radio, practical (James A. Moyer and John F. Wostrel), 1271.
——Railway transportation, electric (H. W. Blake and Walter Jackson), 1013.
——Research narratives, popular (Engineering Foundation), 80.
——Schaltvorgänge, Elektrische (R. Rüdenberg), 534.
——Steam and gas power engineering, elements of (A. A. Potter and James P. Calderwood), 80.
——Substation operation (Edwin Kurtz), 1013.
——Switchgear for main and substations, the choice (W. A. Coates), 80.
——Technical organization: its development and administration (J. M. Weiss and C. R. Downs), 280.
——Telephone circuit diagrams with explanations, handbook of (John M. Heath), 280.
——Trade terms, Digest No. 43, Paris (International Chamber of Commerce), 280.
——Tulley's handbook (Henry C. Tulley), 534.
——Valuation, theory and practice of public utility (W. H. Maltbie), 534.
——Wiring, conduit (Terrell Croft), 534.
——Wiring, electrical (Albert A. Schuhler), 1271.
——Wiring for light and power (Terrell Croft), 534.
——Writing, principles of business (T. H. Bailey Whipple), 534.
Books received, 80, 534, 804, 1013.
Boston. (See Massachusetts):
Boveri, Dr. Walter, death of, *1067.
Brazilian Traction, Light & Power Company's earnings, 339.
Bricklaying machine, electric, 1202.
Brooklyn. (See New York City):
Bus layout, inexpensive (V. Waltjen) D, 1167.
Bureau of Standards. (See Standards):
Business. (See also Manufacturing and Markets):
——Barometer of conditions in the electrical industry, June, *169, July, *410, August, *673, September, *886, October, *1152.
——Development, Joint Committee for, 908.
——Election results and (editorial comment), 1035.
——Instability in industry, causes of (editorial comment), 1141.
Byllesby & Co., H. M.:
——Holding company, form, 972, 1024.
——Merchandising, several properties going into, 1114.
——Plant near Muskogee (D), 1116.
——St. Cloud company, buys, *285.
——Sierra & San Francisco Power Company, buys, *89, *339.
——Standard Gas & Electric Company adds to directors, 1169.

C

Cables:
——Aërial, construction costs (F. A. Westbrook), 1310.
——A.I.E.E. on high-voltage, 10.
——Australian high-tension (M. C. Timms) D, 377.
Cables (Cont.):
——Capacitance of, direct method of calculation of (H. B. Dwight) D, 1269.
——Copper and aluminum conductors, current-carrying capacity of solid bars (S. W. Melson and H. C. Booth) D, 1318
——Corrosion testing by immersion methods (Henry S. Rawdon and A. I. Krynitsky) D, 802.
——Drum for portable apparatus (L. Sabatier) D, *904.
——Failures lowered by good construction (R. L. Frisby), *796.
——Faults in underground, locating (Victor Truant), *687, comment, (Byron T. Burt), 1106.
——Heating, A.I.E.E. papers on, Pacific Coast, 938.
——Heating of large steel-cored aluminum (R. J. C. Wood) D, 1269.
——Highest-voltage, America's, *1326.
——High-voltage (editorial comment), 104.
——Hudson River, installing across (F. A. Westbrook), *355.
——Joints, design of high-tension (C. G. Watson), 896.
——Lead-sheath, for street lighting (J. Hill, Jr.), 1211.
——Manufactures, super- (editorial comment), 505.
——Outgoing, flexibility for, *124.
——Paper, high-voltage impregnated (W. A. Del Mar and C. F. Hanson) D, 1063.
——Sheath corrosion (editorial comment), 452.
——Single-conductor, for distribution service (C. B. Hefner), 1006.
——Steel-aluminum, calculation of (O. Strand) D, 326.
——Steel-armored, for alternating current (H. Svenson) D, 326.
——Steel core and aluminum mantle (O. Strand) D, 228.
——Telegraph, trans-Atlantic, 481.
——Testing by means of the Kenotron (S. J. Terpstra) D, 78.
——Three-core sector-shaped thermal resistance formula of (K. Shimizu) D, 959.
——Wear with different types of direct endings (F. L. Rohrbach), *845.
California:
——Anaheim rejects municipal plant, 908.
——Commission cannot appraise city plants, 966.
——Drought and power shortage:
Farmers' associations help solve, 375.
General Electric rushes equipment to, 429.
Inductor-alternators help to meet, old, *457.
Less acute, 805.
Relieved, 961.
Restrictions removed, 1066.
Standardization and, lack of (editorial comment), 301.
Water-power lesson for public dissemination (editorial comment), 1191.
——Great Western Power and San Joaquin Light & Power merger, 1169, 1220, 1272.
——Institute of, technology's high-voltage laboratory (Royal W. Sorensen), *722, *735.
——Klamath River water-power development, 540, *1070, editorial comment, 1036.
——Los Angeles:
Power-bond issue wins, 480.
Hollywood's street-lighting installation (O. J. Helvey), *1201.
Power bureau plans improvement, 1015.
Power bureau program, 1174.
Substations, municipal (Leroy C. Williams), *1194.
——Oil consumption of electric utilities, 282.
——Oregon Power Company's financing (John D. McKee), *288.
——Ownership in, public, 540.
——Pacific Gas & Electric Co.:
Expansion program, 535.
Relay protection as applied to large transmission network (Roy Wilkins), *1101.
——Rural electric service committee, 1375.
——San Diego, substation in residential district, *1246.
——San Francisco:
Hetch Hetchy, 81.
Hetch Hetchy water bond election, 482.
Modesto-Turlock district, will sell water to, 81.
——San Joaquin Light & Power Co. and Great Western Power Company merger, 1169, 1220, 1272.
——Seirra & San Francisco Power Company, Byllesby buys, *339.
——Southern, Edison Co.:
Construction budget for 1925, p. 1067.
Customer ownership, *87.
Drought and power shortage, 135, 181, 429, *457, *493, 805, 1066.
Inductor-alternators help to meet power shortage, *457.
Long Beach steam station, *834, 1274.
Rate case, 281, 329, 860.
Steam equipment, adds to, 232.
Stream flow, land owners oppose regularization of, 910.
Substation design to meet space limits (J. C. Gaylord), *989.
Substations, standardizes small (J. C. Gaylord), *357.
Transmission, 220-kv. (D), 1217.
——Stream flow, 282.
——Water and power act, 1014, 1066, editorial comments, 985, 1035.
Canada:
——Central-station statistics, 1275.
——Government utilities, oppose tax-free, 1010.
——Great Lake diversions, Hughes on, 860.
——Hydro-electric developments:
Campbellford, near (D), 1167.
Newfoundland, Humberarm (D), 1318.
1923 (D), 427.
Ruth Falls (L. B. McCurdy) D, 959
St. Maurice River (L. H. Burpee) D, 128.
——Lake of the Woods projects, 1277.
——McGill University, electrical education at, 855.
——Ontario, Hydro-Electric Power Commission:
Beck may retire, 1221.
Beck non-committal on St. Lawrence, 380.
Charges against officials of, 1325.
Rates, tenth about (William M. Carpenter), *887.
Scheme could not be duplicated in United States (F. F. Espenschied), 744.
——Ontario merger, northern, 1221.
——Ottawa-Montreal Power Company formed, 136.
——Paper and pulp industry (D), 478.
——Per capita use of electricity, 210.
——Rates in Montreal and Toronto, 1374.
——Saguenay River hydro-electric plant, 85, (D), 903.
——St. Lawrence and Ottawa River plans, 32.
——Water power and mining, 433.
——Winnipeg's municipal system's plan for increasing use of current, 910.
Carnot's thermodynamic announcement, centenary of, 1120, 1274.
Carrier-current:
——Broadcasting (R. D. Duncan, Jr.), *157.
——Equipment for high-voltage power-transmission lines (N. H. Slaughter) D, 1064.
——Patent suit, Squier loses, 479.
——Squier will appeal from patent decision, 754.
Cells, photo-electric (C. F. Elwell) D, *1270.
Central stations. (See Generating stations and Hydro-electric plants.)
Ceylon, Aberdeen-Laxapana hydro-electric scheme in (D), 1116.
Charts, (See also Records):
——Cabinet holds 8,760, page, *688.
——Management, for central stations (Harry A. Snow), *12.
Chimneys, proper size of (T. S. Clark) D, 532.
Cincinnati. (See also Ohio):
Circuit breakers:
——Air, for alternating-current (editorial comment), 1345.
——German high-speed, for Javanese state railways, *789.
——Oil:
Explosion pots (C. C. Garrard) D, 326.
High-capacity (M. Vogelsang) D, 802.
Insulating oils for (Dean Harvey) D, 1370.
Investigation (J. D. Hilliard) D, 752.
Operation of, timing (Clifford W. Bates), *70.
Remote-control operation (O. S. Hockaday), *895.
Plants, requirements for large (M. J. Wohlgemuth) D, 802.
Cities Service Co. (See Doherty, Henry L.)
Cleveland. (See Ohio):
Coal. (See also Fuel):
——Ash effect on refractories (J. J. Brennan) D, 26.
——Carbonization (F. W. Sperr, Jr.) D, 26, (A. R. Powell) D, 377.
——Clinkering, 175.
——Combustion, spontaneous, 175.
——Handling, in bulk at piers (J. W. Speer) D, 180.
——Interstate Commerce Commission urges purchases, 182.
——Mines:
Electricity in, safe use of (W. M. Thornton) D, 79.
Illinois, power studies in (A. J. Hoskins and T. Fraser) D, 1370.
Utah central-station energy in (M. L. Cummings) D, 695.
——Oil country, burning of coal in (editorial comment), 402.
——Plant values of, relative (Kenneth M. Holaday), *363.
——Pulverized. (See under Fuel.)
——Regulation of, President Low of A.S.M.E. for, 1220.
——Storage:
American Engineering Council report, 86.
Fires, overcoming coal-pile (J. W. MacKenzie), *1111.
Piles 30 ft. high, in, 369.
——World's reserves, *511.
Code:
——American, in foreign countries (L. L. Lindstrom), 270.
——Fuels, test code for solid (D), 695.
——Lighting school buildings, 702.
——Logging and sawmill safety (D), 904.
——National Electrical:
Cross-index and guide to, 1223.
Local committee, the (A. Penn Denton), *974.
1925 edition, plans for, 1229.
Coils:
——Aluminum, in electric motors (Y. Balslew) D, 1064.
——Inductance, for test work (J. T. Walther), *1056.

*Indicates illustrated articles

Coils (Cont.):
——Petersen:
German system readopts, *786.
Grounding of long-distance transmission line with (T. Ohtsuki) D, 1318.
Collections and credit. (See Manufacturing and Markets):
Colorado:
——Denver municipal water and power plan, 966.
——Loveland wins right to municipal plant, 907.
——Merger of companies, *185, 285.
——Springs situation, 132, 182, 329.
——Springs Light, Heat & Power Company, receivers appointed for, 1016.
Commercial activities and practices:
——Appliances:
Ford to make, wanted—a Henry (editorial comment), 877.
Operating, costs of, *1062.
Repair department, Detroit Edison, *1008.
——Arkansas Central Power Company's survey of residential customers' demand, 892.
——Brass industry heavy power user, 77.
——Cooking in small restaurants, electric, *1266.
——Costs bring commercial responsibility, higher station (editorial comment), 668.
——Deposits, trend away from customer, 799.
——Floodlighting effect at small cost, striking, *1315.
——Furnaces, electric:
$15,000,000 load offered by brass, 1008.
Steel-melting, as a steady load, 1166.
——Heating:
Bake-oven load, Salt Lake City, *23.
Industrial, five-year growth of, 850.
Industrial, load (editorial comment), 155.
Industrial, power rates to encourage (Wirt S. Scott), 373.
——Heat-treating costs, *1060.
——Hotels, use of purchased power in (W. H. Whitton), *267.
——Housewife, selling utility service to the, 1266.
——Ice plants, causes of high power bills in (C. T. Baker), *1214.
——Incubation, electrical (Harold E. Bell), *373.
——Installing customers' services, 116.
——Lighting:
Advisory service increases revenue, *799.
Better Home-, Campaign. (See under Lighting.)
Better home-, window display, *902.
Fall campaigns, *801.
Kitchen and unexpected result from better (editorial comment), 930.
Merchants, appeal to, *957.
Porch, advertising stimulates, *376.
Sale of, emotional appeal in (editorial comment), 930.
Store encouraged by exhibit, better, Street, rural, 126.
Studied in high school, modern, *1114.
——Lighting, window:
Hartford co-operative display, *424.
High, ads show advantage of, *76.
——Load factor is becoming a real issue (editorial comment), 1345.
——Merchandising:
Appliance display and waiting station, combining, *126.
Appliance service wagons, *177.
Appliances for the home, wanted, more (editorial comment), 155.
Appliances, portable meter shows cost of using, *1267.
Appliance sales of Public Service Company of Northern Illinois, 902.
Byllesby properties going into, several, 1114.
Consumers and customers (editorial comment), 452.
Customer survey makes good "prospect" list, *1166.
"Demonstration" and "instruction" (editorial comment), 829.
District sales effort, silver trophy stimulates, 375.
Eastern Texas company's salesroom, *529.
Employees act as salesmen, all (H. C. Rice), 1060.
Fad market, bobbed hair as an example of a popular (editorial comment), 3.
Illinois Power & Light Company's salesroom, *851.
Lighting units, "daylight" feature sells 11,449, p. 1268.
Model exhibits better than general display (R. E. Naylor), 474.
Radio, why a central station sells, *1164, editorial comment, 1192.
Range installations, fixed prices for, *476.
Range manual, N.E.L.A., (editorial comment), 55.
Range salesmen, satisfied customers as, 76.
Range service, 176.
Ranges, campaign sells 1,110, p. 1317.
Ranges, Puget Sound company sells 803, p. 376.
Ranges, use utility employees to sell (George A. Hughes), 1181.
Refrigerators in Chicago (Oliver K. Hogue), *1316.
Commercial activities and practices (Cont.):
Role of, important (Arthur Williams), 628.
Salesroom's value to the central station, *1115.
Servicing of appliances, tag guarantees, *531.
Store lighting units, Ohio Public Service Company campaign, *25.
Store location, advantages of prominent, *1317.
Texas company sets new appliance sales record, 1061.
Twin State Gas & Electric Company's, in small towns (Everett L. Olds), *1153, editorial comment, 1142.
Utica (N. Y.) company will do, 1214.
Washing-machine sale, Birmingham, *24.
Window shoppers, making better "prospects" out of, 1165.
Window trimming for branch offices (V. H. Moon), *226.
——Meters:
Connect and disconnect orders (A. W. Isenhart), *75.
Leaving, connected brings good will, *1113.
——Power customers:
Converting isolated-plant operators into (editorial comment), 453.
Service economies for (R. H. Silbert), 425.
——Power sales development, fields for (E. W. Lloyd), *518.
——Radio:
What it means to the central station (David Sarnoff), 1094, editorial comment, 1192.
Increases use of energy 40 per cent, 1315.
——Ranges:
Cost of using, 275, comment (Kenneth C. Ogden), 523.
Load in the Northwest, studying the, *900.
——Rate to stimulate use of appliances, new room, *694.
——Refrigerators:
Editorial comment, 721.
Ice-cream retailers, for, *890.
Load, domestic, 1214.
Performance data, 1062.
Serving domestic (H. E. Young), 1149.
Stores, for small, (W. J. Kyle), *1368.
——Rural service, utilizing county fair to develop (M. H. Wagner), *958.
——Service promptly restored by emergency transformer (H. C. Thuerk), *77.
——Sign business, Boston photo-letter "pulls," *1215.
——Sign uses 44,300 kw.-hr. monthly, single electric, *1268.
——Small consumer as insurance against a rainy day (editorial comment), 669.
——Small-town departments, centralized sales effort for (editorial comment), 54.
——Steam from city incinerator, central station buys, 1164.
——Telephone, transacting business by (R. F. Bonsall), *1216.
——Threshing as a possible rural load, 1009.
——Transactions with the public, simplifying (C. M. Knapp), *692.
——Trouble shooting, rapid (Charles F. Stuart), 225.
——Truck display, New York electric, *325.
——Windows used for dealers' displays, central-station, 75.
——Wiring, electrical homes stimulate, 694.
Commission regulation and rulings, public service:
——Advertising, newspaper (Connecticut), 391.
——Alternating-current service, grounding neutral wire of (Missouri), 1380.
——Bill to limit jurisdiction of courts over rate cases, 181.
——Bond issues:
Additions and betterments, against (Missouri), 1078.
Authorization of (Alabama), 709.
Sanction (Missouri), 1127.
——Carrier, when an electric utility is a common (Indiana), 1228.

Markets. (See Manufacturing and Markets):
Maryland:
——Baltimore, Consolidated Gas, Electric Light & Power Company:
Financial structure, *286.
Financial structure (Paul Willard Garrett), 970.
Short-circuit calculating board (L. G. Smith), *308.

Massachusetts:
——Boston:
Chamber of Commerce, Onken addresses, 964.
Metropolitan Electrical League formed, 699, 1174.
——Boston, Edison Electric Illumination Co.:
Broadcasting service *757.
Costs, electric service, *277.
Service advertisements, *850.
Weymouth plant, 966.
——Haverhill Electric Company's new room rate to stimulate use of appliances, *694.
——Holyoke Street Railway Company sells plant, 905, 964, 1071, 1119.
——Springfield, United Electric Light Company's meter building, *1038.
——Webster & Southbridge Company, New England Power Company may buy, 283.
——Worcester Electric Light Co.:
Private plants to its lines, adds (editorial comment), 453.
Small consumer as insurance against a rainy day (editorial comment), 669.

Material handling. (See Handling materials):

Measurements and measuring:
——Balancing apparatus, new (F. Punga) D, 279.
——Boiler rooms input and output in (J. M. Spitzglass) D, 278.
——Calorimeter for steam investigations, Bureau of Standards (D), 477.
——Candlepower, by means of the photoelectric cell (F. K. Moss) D, 852.
——Capacity by analogy, of (William Cramp) D, 1269.
——Carbon resistance, commercial methods of (Roscoe Wilmeth) D, 532.
——Circles, computing the mutual inductance of two coaxial (H. L. Curtis and C. M. Sparks) D, 1011.
——Dielectrics:
Losses at very high voltage (P. Capdeville and R. Laroche) D, 1217.
Strength of liquids and compounds (R. Dieterle) D, 26.
——Generator load in boiler room, indicating (R. L. Frisby), *419.
——Hot spot temperatures, determining (R. L. Frisby), *318.
——Hydrogen-iron centration (E. B. R. Prideaux) D, 1319.
——Hydrogen-ion centration with glass electrodes (W. E. L. Brown) D, 1117.
——Iron, complex permeability of (A. Nukiyama and Y. Shoji) D, 533.
——Manometer indicates strainer condition (James Bivim), *1003.
——Oscillograph, wave-form examination with the cathode-ray (N. V. Kipping) D, 695.
——Physical properties by the thread recorder (J. L. Haughton and W. T. Griffiths) D, 179.
——Power, at high-voltages and low power factors (Carroll, Peterson and Stray) D, 1063.
——Radio frequency, at (August Hund), *998.
——Residual charge and the ratio of electrical conductivity to capacity due to temperature, variation of (H. Sae Gusa) D, 959.
——Tape tested for conductivity (C. B. Wright), *1366.
——Temperature:
Armature by means of thermocouples, in a rotating (B. G. Churcher) D, 427.
Resistance, by (Earl E. Norman), 895.
Rise, altitude correction for, 420.
——Tuning folks, electrical (A. B. Wood), D, 752.
——Water:
(F. Johnstone Taylor) D, 326.
Height of , electrical registration of (J. De Graaff Hunter) D, 228.
Tail-, gage, 322.

Merchandising. (See under Commercial practices and Manufacturing and Markets):
Mercurial poisoning (J. A. Turner) D, 27.
Mercury-vapor process, Emmet (W. L. R. Emmet) D, 26.

Metals:
——Fatigue of (H. F. Moore and T. M. Jasper) D, 229.
——Non-arcing (H. Oyama) D, 327.
——Ore, electricity makes metal from (editorial comment), 203.
——Strength and related properties of, and wood (D), 752.
——Temperature upon properties of, effect of (D), 27.
——X-ray examination of (T. C. Dickson) D, 1319.

Meters and metering. (See also Instruments and Measurements):
——Appliances, portable meter shows cost of using, *1267.
——Connections, temporary (W. F. Walsh), *71.
——Constant, warning of, *422.
——Customers' record for readings, card for, *475.
——Customers' services, installing, 116.
——Demand, equipment, *224.
——Density, selenium cell (F. C. Toy and S. O. Rawling) D, 959.
——Distant dial, transmission and summation of readings by use of (R. E. Thatcher), *1311.
——Hanger, compact (E. H. Finkelberg), *175
——Installations, *221.
——Magnetometer, portable (J. H. Shaxby) D, 78.

Meters and metering (Cont.):
——Mounting and wiring, *274.
——N.E.L.A. committee, 1273.
——Pole-top, transformer cases used for, 472.
——Power-factor, equipment (C. B. Wright), *73.
——Racks cost $40 per section, demountable (W. A. Forbush), *527.
——Remote metering by the impluse and condenser method (B. H. Smith) D, 427.
——Service switch question (Joseph Sachs), *1049.
——Switchboard, copper shunts used with (R. D. Turgeon), *844.
——Three-phase, connection of (H. Ziemendorff) D, 903.
——Time study in, work (Fred H. Pumphrey), *120.
——United Electric Light Company, Springfield, Mass., building, 1038.
——Voltmeter, small peak (A. C. Bartlett) D, 378.
——Watt-hour, creeping of the induction-type (M. Oyama) D, 903.
——Watt:
High-voltage (Philip C. Clark and Charles E. Miller) D, 1218.
Thermal (H. W. L. Bruckman) D, 78.
Three-phase balanced-load (G. W. Stubbings) D, 128.

Metric system, Japan adopts, 135.
Mexico, American Manufacturers' Export Association mission to, 284, 702.
Mica, electric testing of (F. Grunewald) D, 1116.
Michigan:
——American Public Utilities Company, Insull interests set, 481.
——Consumers Power Company:
Home-lighting contest in 160 towns, 474.
Saginaw River steam plant of (D), 477.
——Detroit Edison Co.:
Appliance repair department, *1008.
Earnings, *337.
Extension plans, cost of 911.
Financial structure (Paul Willard Garrett), *1022.
Hot spots and overload indicators (Harold Cole), I, *314, II, *360.
Huron River plant, new, 911.
Management charts (Harry A. Snow), *12
Transmission line, machine building of (Harold Cole), *670.
——Electric Light Association Convention, 483, 537, 654.
——United Light & Power Company in merger, 754.
——Utilities' "open-house week," 325.

Middle West Utilities Co. (See under Illinois):

Mills:
——Paper:
Drives and power service, (H. E. Stafford) D, 533.
Super-calendar drive, dual-frequency, *1048.
——Steel:
Association of Iron and Steel Electrical Engineers Convention, *678.
Blooming-mill screwdown, mechanical and electrical analyses of 40-in. (F. D. Egan) D, 553.
Main-roll motor drive (A. W. McAuly) D, 753.
Mechanical, electrifying ten-inch (M. J. Wohlgemuth and M. H. Morgan, Jr.), *465.
Operation problems (A. J. Whitcomb) D, 803.
Rehabilitation (J. M. Moore and H. M McLain) D, 853.
Rolling, electric drive of (A. Hartmann) D, 696, 1319.
Southern rolling (M. P. Lawton) D, 189.
Tata iron works at Jamshedpur, India, electrification of (S. Ghosh) D, 1168

Milwaukee, (See Wisconsin):
Mines and mining:
——Bureau of, on safe and unsafe electric equipment, 333
——Coal:
Electricity in, safe use of (W M. Thornton) D, 79.
Illinois, power studies in (A. J. Hoskin and T. Fraser) D, 1370.
Utah, central-station energy in (M. L. Cummings) D, 695.
——Electrification, safety in, 1110.
——Fans at 164 coal and metal, ventilating (D. Harrington and M. W. von Bernewitz) D, 960.
——Hoists (F. L. Stone and F. R. Grant) D, 478.
——Iron-ore, electrification of Minnesota open-pit (R. S. Walker) D, 853.
——Locomotives:
Storage-battery (T. Kuramma) D, 904.
Storage-battery, permissible (L. C. Ilsley and H. B. Bronot) D, 229.
——Ore from deep levels, methods of hoisting (J. A. Vaughan) D, 1319.
——Pumping, high-lift (E. F. Irving) D, 279.
——Salt, plant, electricity in (A. B. Parsons) D, 129.
——Zinc plant, Consolidated Mining and Smelting Company's (R. N. Lockyer) D, 279.

Minnesota:
——Northern States Power Company acquires St. Cloud company, *285.
——Northern States Power Company's High Bridge generating station, *1247.
——St. Paul, Ford Motor Company's hydro plant at, 1169.
——State Fair's farm-service exhibit, 810.

*Indicates illustrated articles

Missouri:
——Power & Light Company expands, 187.
——Rolla sells municipal plant, 966.
——St. Joseph defeats street-lighting bond issue, 1118.
——Sedalia, City Light & Traction Company's station fired with oil and coal (E. J. Burger), *1039.
Molybdenite, thermo-electrical and actino-electrical properties of (W. W. Coblentz) D, 279.
Molybdenum, thermal expansion of (Peter Hidnert and W. B. Gero) D, 533.
Motion pictures: De Forests' "phonofilm," *964.
Motor control:
——Magnetic control for machine tools (A. L. Harvey) D, 180.
——Polyphase synchromous motors, starting (E. V. Clark) D, 1012.
——Story of (A. W. Berresford), *633.
——Synchronous:
(H. D. James and J. H. Graybill) D, 478.
Ployphase, starting (E. V. Clark) D, 1168.
Motors:
——Building electric welding in, *423.
——Central-station auxiliaries, for (H. L. Smith) D, 1012.
——Coils in, use of aluminum (Y. Balslew) D, 1064.
——Induction:
Braking of, regenerative (K. L. Hansen), 846.
Change-speed (C. W. Kincaid) D, 753.
Parallel concatenation of (T. Isono) D, 960.
Pulley for, clutch (G. Lebaupin) D, 129.
Synchronized (C. Feldmann and J. Aberson) D, 79.
Synchronous (H. Cotton) D, 428.
Three-phase, operated under abnormal supply conditions (D. D. Ewing and C. F. Bowman) D, 1117.
Three-phase, performance of (T. F. Wall) D, 1064.
——Irrigation plant (C. W. Geiger) D, 180.
——Mine, drying out, 1209.
——Motorization, better engineering needed in (editorial comment), 402, comment (Arthur H. Allen), 952.
——Paper and pulp industry, in Canadian (D), 478.
——Paper mills, dual-frequency super-calendar drive in, *1048.
——Power consumption, economics of (D. J. Bolton) D, 1269.
——Ratings of, I.E.C. (editorial comment), 255.
——Repulsion, theory and calculation of the squirrel-cage (H. R. West) D, 803.
——Rotor construction, high-speed (D), *428.
——Run backward, unusual conditions cause them to (G. Cooley), *1310.
——Ship auxiliaries, constant current motor for (D), 1371.
——Steel mill:
Electricity's contribution to the steel industry (K. A. Pauly) D, 753.
Main-roll drive, charging (A. W. Mc Auly) D, 753.
Rolling, electric drive of (A. Hartmann) D, 1319.
——Stoker-drive desirable location for (R. D. Gillespie), 1007, *1057.
——Synchronous:
Benefit of (L. J. Moore), 733.
Ice and refrigerating plants, in (Truman Hibbard) D, 327.
Synchronizing an induction-type (Y. Watanabe) D, 327.
——Woodworkers, high-speed direct connected, for (W. A. Furst) D, 1012.
Municipal ownership. (See Ownership):
Muscle Shoals. (See Hydro-electric developments):
